HIGHLIGHTS

MENTORMATE

Aug 2020 - Present

PROJECTS:

The organization is initiating transformative projects aimed at enhancing financial services, including wealth management, improving customer experiences, and bolstering operational efficiency. These projects focus on digital banking advancements, data analytics, and operational excellence. Their goal is to streamline mobile banking, personalize offerings through data insights, optimize internal processes, and elevate wealth management services to ensure seamless operations and a superior customer experience.

- Wealth Management Portal – UI/UX Prototype Development and Research
- Wealth Management Portal (for Advisors) – UI/UX Prototype Development and Research
- Design tokens research
- VueJS UI Library

RESPONSIBILITIES:

- Collaborating with UI/UX designers and product owners to understand the research objectives, and translating the designs into high-fidelity prototypes for user testing
- Research and analyze patterns, workflows, and technologies
- Leading the prototype team and participating in agile ceremonies, such as sprint planning, retrospectives, and daily stand-ups, to ensure the project's success
- Create VueJS UI Library to support business needs and to reduce development time
- Creating and maintaining documentation (confluence, projects wiki & README.md, VitePress)
- Migrate projects from VueCLI to Vite, Vue 2 to Vue 3, Vuex to Pinia and Strapi v3 to v4

ALMEDIA | ACADEMY

Nov 2024 - Feb 2026

PROJECT:

Academy serves as an educational and onboarding funnel to the main Freecash platform, providing guides, tutorials, and insider tips that empower users to make the most of Freecash's earning system.

RESPONSIBILITIES:

- Developed core backend APIs and services for Academy content management
- Integrated Claude AI for automatic content translation across 13 languages, enabling localized experiences for international users
- Integrated Intercom for seamless user support and engagement within both platform. Connected Intercom to the CMS to automatically provide Academy content as knowledge-base articles for AI-driven support. Implemented dynamic redirects for content, usable on both the Academy and the main Freecash platform, ensuring smooth navigation and content accessibility
- Integrated Cloudflare Images to efficiently serve media assets and reduce load times
- Integrated Meilisearch with custom daily update functionality to provide fast, accurate search across Academy content
- Developed a cronjob to sync apps and content from the main platform, ensuring the Academy stays up to date with platform data
- Customized TinyMCE editor to meet content writers' requirements
- Implemented automatic sitemap generation to improve SEO and ensure structured content indexing

Vue.js Developer Level I
Issued by Vue School (Sep 2023)

Jul 2023 - Jan 2025

@mentormate/create-vue is a hard fork of the @vuejs/create-vue, where we are extending its existing functionality while keeping it up to date with the original repository.

- Research best approach to extend existing create-vue CLI
- Write and maintain documentation (README.md, project setup & contribution guides)
- Add & support packages
- CI/CD - autodeploy to NPMJS on release
- CI/CD - renovate bot for package version support
- Create GH issues & onboarding other contributors

Project Management	TypeScript	VueJS	NodeJS	EJS	Shell	CI/CD

Participants.bg is a product of Lucrat – a company that has been offering UX services and training in Bulgaria for over 20 years. Our team has conducted hundreds of tests with users, which is why we know that the role of participants is very important to the success of any study.

Participants.bg serves to:

- researchers – as a tool to recruit suitable participants for paid studies.
- people with different backgrounds – as a registration platform to participate in paid surveys.

- Frontend and Backend implementation
- Authentication flow
- Email integration
- Dynamic surveys for participants
- Find participants flow
- CI/CD integration
